WELCOME TO THE FUTURE

■ THE TOUR

THE ROBOT MUSEUM sees the light in 2013 as a project to bringing closer the thrilling world of robotics entertainment on a forthright way to any kind of public.

Since the very beginning, THE ROBOT MUSEUM has left an indelible mark in the memory of every visitor and, nowadays, it's yet consolidated as a **must-see** for both experts and newcomers as well .

Engage yourself into an **enthralling journey** across robotics yesterday, today and tomorrow at which you will meet all kind and shape robots. Among them, you will find uncommon pieces such as, for instance, **the huge Sony Aibo Robotic dogs collection**, the astonishing androids NAO and PEPPER who can interact with the public or our growing family of renowned movie robots replicas.

With a guide system in which entertainment and divulgation come together, THE ROBOT MUSEUM always gets out a smile from a child and the gesture of admiration from an adult... Or vice versa.

■ GROUP TOURS

EDUCATIONAL INSTITUTIONS: At THE ROBOT MUSEUM we share the true belief about robotics being the future technology. Thereby, we are particularly focused on bringing closer to younger audiences by arranging tours for educational institutions, every one of which is **customized upon age and level** of each group of students.

BUSINESS: Tours for companies and business institutions comprehend masterclass and practical demos about robotics and drones. Moreover, there is an optional coffe-break.

TOURIST GROUPS: For large groups (more than 20 individuals), THE ROBOT MUSEUM gives the chance to live a **different and customized experience** where knowledge and entertainment collide.

 English guided tours at 16:00h.
(Monday to Friday)

Group tours by previous booking only by e-mail at reservas@therobotmuseum.eu

■ EDUCATION

THE ROBOT MUSEUM is the spectacular setting where ROBOTRÓNICA, the robotics division of JUGUETRÓNICA, imparts courses related to this exciting technology. The students, previously classified **by age and level**, learn about Arduino, LittleBits, or the astonishing android **NAO**.

■ EVENTS

More than just an exhibition hall, THE ROBOT MUSEUM is a **multidisciplinary area** where besides tours and courses, **take place events** related to robotics and broadly technological topicality. Poducts coming-outs, movies, books, masterclass or discussions carried out by experts in assorted fields of knowledge.
